WORK EXPERIENCE

Research & Development Engineer I Jukshio

12/2021 - Present

Hyderabad, Telengana

A pioneer in the field of artificial intelligence, we have been developing innovative AI solutions for businesses for over 7 years.

Achievements

- Created 15 demo applications in one year for the company, which helped to generate leads and increase sales.
- Maintained company old codebase for a dashboard written in Angular and Node JS which was daily used by 300-500 users.
- Successfully migrated one angular repo from angular 6th version to angular 13th version.
- Learned react in 2 months and implemented MQTT in the dashboard to make real time data curation in our company.
- Gathered requirements from the product team and ensured that the application met the needs of the users.
- Eager to learn new technologies and always looking for ways to improve my skills.

Full Stack Developer Intern Sukshi Academy

08/2021 - 11/2021

Hyderabad, Telengana

Sukshi Academy offers internship programs that provide students with the opportunity to work on real-word projects and gain hands-on experience.

Tasks

- We need to create a retail application that will take speech input from a person, convert it to text, and then use an AI model to respond with text-to-speech instructions on where to find a particular product in the store.
- In our internship batch we were 15 people divided into different different groups to completed the application.
- At the end of the internship we were able to deliver the application.
